SUMMARY

Fullstack Developer with 2 year of experience in MERN stack development and a Gold Medal in BS in Software Engineering. Proficient in ReactJS, NodeJS, NextJS, React Native, and TypeScript. Known for writing clean, maintainable code and enhancing web applications to meet industry best practices. Dedicated to continuous learning and staying updated with the latest trends and technologies in software development.

EXPERIENCE

Fullstack Developer

Geekinate

August 2024 - Present, Islamabad

- Led the development of a cross-platform educational app for plants (inspired by Duolingo) using React, React Native, Next.js, Node.js, and MongoDB, delivering a unified experience across web and mobile.
- Optimized Core Web Vitals, resulting in noticeable improvements in page load speed, responsiveness, and overall user experience.

Fullstack Developer

Usquare Solutions

January 2024 - July 2024, Islamabad

- Migrate ReactJS application from Mantine and JavaScript to a NextJS application using TailwindCSS and TypeScript.
- Drive efforts to improve performance, functionality, and usability ensuring optimal user experience.
- Increased Lighthouse performance score by 40 points.

Fullstack Developer

Freelance

October 2023 - January 2024, Islamabad

- Developed a web application that connects users with verified expert negotiators, implementing features such as chat functionality, negotiator profiles, and payment integration with Stripe. Utilized NextJS, Firebase, and MaterialUI.

Fullstack Intern

Colossal Innovations

July 2023 - October 2023, Islamabad

- Developed a comprehensive web application with React, Node, and MongoDB, featuring company services, testimonials, a blog, portfolio projects, and career opportunities.
- Implemented a management dashboard using React, TypeScript, SCSS, Node, and MongoDB, optimizing administrative tasks and enhancing content and user management.

PROJECT

PlaySense

Final-year project • playsense.netlify.app/

- PlaySense is an eSport platform with profile customization, real-time chat, and a game database. Built with React, TypeScript, SCSS, Node, Express, MongoDB, and PayPal, it supports service transactions, match scores, gameplay insights, and user management.

Deal-It

Freelance • deal-it.vercel.app/

- Deal-It connects users with verified negotiators to simplify price discussions. Built with NextJS, Firebase, MaterialUI, and Stripe, it features negotiator profiles, a blog, chat functionality, and tools for subscriptions, feedback, and order management.

Colossal Innovations Website

Colossal Innovations • colossal-innovations.netlify.app/

- Colossal Innovations is a web application for a software company in Islamabad, showcasing leadership, services, and values. Built with React, Node, Express, and MongoDB, it features client testimonials, a blog, a project portfolio, and career opportunities, providing a comprehensive and user-friendly overview of the company's offerings.

EDUCATION

Bachelor of Science in Software Engineering

Iqra University, Islamabad Campus • H-9, Islamabad • 2024 • 3.8 CGPA

- Awarded scholarships for exceptional academic performance, including achieving a full 4.0 GPA in multiple semesters.
